PROFILE SUMMARY

UI/UX Designer with 1.5 years of experience designing digital products in fintech and EdTech. Skilled in user-centered design, Figma, wireframing, prototyping, responsive design, and design systems. Experienced in understanding business requirements, improving user flows, and collaborating with developers and Business Analysts to turn designs into functional digital experiences.

EDUCATION

K S School of Engineering and Management **Dec 2021 – June 2025**
Bachelor of Engineering in Computer Science, Bengaluru

EXPERIENCE

UI/UX Designer **Feb 2025 – Present**
Atyati Technologies

- Contributed as part of the design team to lending platform products, including Individual Loan, MSME, MLAP, Loan Management System.
- Supported design of role-based workflows, dashboards, and case-tracking interfaces for lending and post-disbursement processes across the loan lifecycle.
- Used Claude and Figma Make to vibe-code and rapidly develop product interfaces and prototypes.
- Worked with senior designers, product, and engineering stakeholders to build consistent, reusable UI components and design patterns for BFSI platforms.

UI/UX Developer **Aug 2025 – Jan 2026**
KVR Infinity

- Designed EdTech platform using Figma with interactive UI/UX.
- Used React.js for frontend development, building out interactive UI components.
- Worked with developers and designers to align design and functionality.

UI/UX Design Intern **June 2025 – July 2025**
CMR University — Creative & Communication Department

- Contributed to the design of EdTech product interfaces, translating requirements into clean, user-friendly layouts.
- Created user flows and wireframes to support a smoother, more intuitive learning experience.
- Collaborated with the creative and communication team to ensure visual consistency across deliverables.

SKILLS

Design Tools: Figma, Framer, Adobe Creative Cloud

UX & Product Design: UX Design, CX Design, Human-Centric Design, User Flows, Journey Mapping, Persona Development, Design Research & Interviews, Usability Testing

UI & Visual Design: Interactive Design & Prototyping, Mobile-First Responsive Design, Design Systems, Typography & Layout

Collaboration: Developer Handoff, Design Specifications, Stakeholder Collaboration, Agile/Scrum Basics

AI Tools: Claude, Cursor, Antigravity, Figma Make, Anima

Development: HTML/CSS, JavaScript (basic), React.js

Developer Tools: VS Code, Git, MS Office
